Assist a National Missionary	Cameroonian national missionaries are going to the least-reached peoples of Cameroon. While Cameroon Christians support the basic salaries of these missionaries, most have no ministry funds. Contributions will provide these national missionaries with Bibles, literature, or even a motorcycle in order to reach the people to whom they were sent. <i>Suggested \$1,000 annually per national missionary.</i>	\$2,000
Chemotherapy	One course of chemotherapy is equal to half a year’s wage for the average Cameroon laborer. <i>Your gift of \$600 will subsidize the cost and make this life-saving treatment available to patients in need.</i>	\$10,000
Fulbe Leadership Project	Since many Christian communities have no trained leaders to help disciple them as followers of Jesus Christ, one of the priorities for Fulbe ministry is leadership development. This program will allow young couples to be mentored by established leaders in various locations. They will receive biblical training, gain pastoral experience, and learn practical leadership skills in a “hands on” environment.	\$2,625
HEARTS for the Deaf	At the Mbingo School for the Deaf, hearing-impaired children have the opportunity to be educated and integrated into society. Contributions help offset living and tuition expenses of the two hundred students at the school. <i>A donation of \$250 per child goes a long way.</i> NOTE: Identity of children not disclosed.	\$5,000

HIV/AIDS Chosen Children	Funds provide education and health support for children orphaned by HIV/AIDS and other disasters and diseases. The children are placed with caregivers in their communities rather than in an orphanage. <i>Suggested minimum \$250 annually per child.</i> NOTE: Identity of children not disclosed.	\$10,000
Capital Project Hydro Electric Project - Mbingo	Electricity is an enormous challenge in Cameroon, and even more so for hospitals with expensive electronic equipment, not to mention the challenge of regular power outages during surgery. Dr. Palmer is pioneering an effort to construct a Hydro Electric Dam near the hospital in Mbingo. This project would provide clean and consistent electricity, and would become one more piece of the plan to establish the Mbingo hospital as a premier teaching hospital in Cameroon. NAB is partnering with other organizations to fund this project.	\$2.5 million
ICU & Oxygen/Suction Equipment	There is a growing need for an updated Intensive Care Unit (ICU and a hospital-wide oxygen and suction system in the patient rooms to greatly improve the patient care at Mbingo Baptist Hospital. The recent return of one of the CIMS Internal Medicine graduates from a year of ICU training, coupled with these upgrades – new basic ventilators, more infusion and syringe pumps, BIPAP machines, a blood gas analyzer, and an oxygen and suction system – will make a major difference in the quality of care, especially within the surgical and ICU areas of the hospital.	\$230,000
Ndu Seminary Work/Study Program	Many seminary students do not have sufficient funds to cover their education expenses. By working to help maintain the large school campus, they can earn money that is applied to their tuition. Contributions are used to pay these students who work maintenance jobs.	\$5,000
Pathologist Training – Mbingo	This fund will assist in the training of an African pathologist. Having a pathologist on the Mbingo campus gives the hospital the ability to perform lab work on site, providing quality and timely test results for patient care.	\$30,000
Restore Primary Schools	Over 40 percent of Cameroon’s 20 million people are under the age of fifteen. With this many children seeking and needing education, there is a continual challenge to maintain school infrastructure. Many schools have leaking roofs, mud floors, and inadequate desks. Your gift will help to provide conducive learning environments for children attending the Cameroon Baptist Convention’s eighty or more primary schools. <i>Suggested \$1,000 per school.</i>	\$5,000
School for the Blind	At the Banso School for the Blind, visually impaired children have the opportunity to be educated and integrated into society. Many have been left as orphans. Contributions help offset living and tuition expenses for the two hundred students at the school. <i>A donation of \$250 will subsidize the tuition for one student for one year.</i> NOTE: Identity of children not disclosed.	\$5,000
Water Project - Fulbe	A good, clean source of water brings health (as occurrences of typhoid and malaria drastically decrease), new possibilities for women (since women and especially girls no longer have to spend as much time fetching water, and now may have time to attend school, among other things), and open doors for the good news of Jesus, so that whole communities may be transformed. Communities provide labor and local resources. Funding provides for specialized material and skilled labor.	\$2,775
